

Dear Dr. Johnson,

It is well known that you are an early adopter of technology and I can attest to the fact that you were the first physician in US to use AWT for cellulite reduction, and from what I hear you continue to be one of the world leader in AWT treatments.

We appreciated your study and advice to us as we were building our body shaping program and can attest that you were the first physician in N. Texas to use second-generation body vibration device (FitVibe). We believe as you do, that this adjunctive therapy is important and effective for Fat , Muscle tone and Cellulite.

I appreciate your continued interest and willingness to be an Innovator in Aesthetic Medicine and I look forward to working with you on many projects in the future.

Sincerely,

Paul Herchman

Past CEO of MedSurge Advances,Inc
