Re: **MPX; Dr. Bill Johnson**

To whom it may concern:

Dr. Bill J. Johnson, of Innovations Medspa, became the first Smartlipo physician in North Texas while I acted as his direct representative to Eclipse Medical, the distribution company for Smartlipo. Dr. Johnson took delivery and made payment for his Smartlipo device on February 15, 2007 (02.15.07) and by doing so, became the first in North Texas to offer Smartlipo laser liposuction. The following year, I represented Eclipse Medical and sold Dr. Johnson his Smartlipo MPX. Dr. Johnson took delivery and made payment for the Smartlipo MPX on July 3, 2008 (07.03.08), making him the first in Texas to offer the Smartlipo MPX technology.

Sincerely,

Patrick Mockler
Prior Account Representative Eclipse Medical
